

# Inspire Xtreme

Hybrid Solid LVT by  
**NOX**

Style shown: GENX-2041  
Spruce

## New generation hybrid solid LVT Click with NOXGenesis Technology \*Patent Pending Authentic wood grain look and feel with embossed in register (EIR)

- **Increased Stability:** Out performs all standard requirements during extreme testing. Increased stability test results at 80°C (176°F)
- **Advanced Durability:** New patent pending technology designed for increased indentation resistance with over 1500 PSI compared to WPC at 250 PSI
- **Eco-Friendly:** NOXGenesis technology protects the environment ensuring low VOCs with a phthalate free core by eliminating glue compounds. No glue allows us to create a more stable product and eliminates delamination.
- **Design:** New authentic wood grain using EIR to enhance realistic appearance in any room.
- **Easy Installation:** Simple and hassle-free installation with NOX Click'n go Drop'n go click system. Genesis technology minimizes subfloor imperfection and subfloor preparation.
- **Water Proof:** Waterproof protection against spills and stains.
- **Silent and Soft Floor:** Sound Protec™ acoustic protection technology creating a more comfortable feel underfoot while reducing ambient room noise.
- **Light Weight:** Technology designed to out perform traditional RCB with light weight planks for easier handling.

### Inspire Xtreme - 8mm 20 mil with attached pad

- Click
- Beveled Edge
- EIR
- CB Coating
- I4f Locking System
- 7.28" x 47.72" Planks  
(185mm x 1,212mm)

6 planks per box • 14.48 Sq. Ft./Box • 70 Packs/Pallet • 1,013.67 Sq. Ft./Pallet
